STONY PLAIN SUN.

VOLUME TEN.

STONY PLAIN, ALBERTA THURSDAY, JUNE 12, 1930

Whole Number 514

If You Are In Favor of

- 1 The defeat of the School Act
- 2 A reduction of provincial taxation,
- 3 The curtailment of the Public Debt,
- 4 The abolition of the Supplementary Revenue Tax,
- 5 Equal representation and a uniform voting system throughout the Province,
- 6 An active policy to encourage industries to locate within the province,
- 7 Making the automobile tax proportional to the time the car is used,
- 8 The elimination of the present Departmental Efficiency,
- 9 An active policy for the encouragement of Agriculture,
- 10 The development of the Resources by the People for the benefit of All,

IF YOU ARE,

VOTE FOR BRYAN
THE LIBERAL CANDIDATE.

Mr Bryan's Meetings.

George J Bryan, the Liberal candidate, is still engaged in his series of campaign meetings. Last week his meeting at Woodbend was a very enthusiastic one, his auditors filling the schoolhouse to capacity. At Rosenthal, the following night, the people of the district turned out en masse, there being over 25 cars parked in front of the school during the address.

Thursday was the Liberal candidate's busy day, 2 meetings being held, one at Keep Hills and one at Wachie; and Friday was devoted to the meeting at Holborn.

On Saturday a meeting was held at Tomahawk, where a good-sized crowd met to listen to the Liberal candidate's presentation of his case. Following the heavy rain storm, the return-trip developed into a muddy trek, Mr Bryan arriving back here at 3 a. m. On the trip to Tomahawk Mr Bryan's car passed by the open-air meeting which Mr Macleod was holding at Wabamun that afternoon.

The Nominations.

Nominations for the Alberta Legislature for the Stony Plain Electoral District were received on Monday the 9th by Returning Officer Reuben Larson. Nomination papers were handed in for: BRYAN, George James, Barrister, Stony Plain; MACLEOD, Donald, Farmer, Lake Isle.

Just after the close of the two hour nominating period, Mr William Thoms, of Fallis, hopped in, with his nomination paper. The R. O. declared the nominations had closed. Mr Thoms is on the enumerator's list at Fallis as a "fisherman."

The Standing of the Parties.

When the Legislature closed the standing of the parties in the House was: U.F. 43; Liberals 7, Labor 6, Conservatives 4; total 60. In the next Assembly there will be 63 seats, owing to redistribution. Several ridings in the South have been combined. Edmonton and Calgary have been given another member apiece; and Drumheller, Clover Bar and Grand Prairie have been raised to constituencies.

Walter League Notes

Preparations are already being made by the officers and members of the local branch of the Walter League for the big Rally and convention to be held at Edmonton Beach Sunday July 27.

Representatives will be present from B. C. and Alberta, and the meeting place will be the commodious summer cottage which the local Walter League recently purchased from Mr Jac Miller. It is here the Leaguers will hold their summer camp.

The Canadian Pacific Bubble

The following extract from an editorial in "London Truth," published, September 1, 1881, 40 years ago, is amusing.

The Canadian Pacific Railroad Company has begun, I see, to launch its bonds. A group of Montreal and New York bankers have undertaken to float ten million dollars worth of the company's last great bonds, and the Bank of Montreal, with its usual courage, has taken one-fourth of the entire loan. This announcement looks as if the Canadians were going to raise the necessary capital on the other side of the water, but I have a shrewd suspicion that they have no real intention of doing anything of the kind. The New Yorkers are keen enough gamblers, and reckless enough at times to admit, and yet it is impossible to believe that they are such fools as to put their money into this mad project. I would as soon credit them with a willingness to subscribe hard cash in support of a scheme for the utilization of icebergs. The Canadian Pacific Railway will run, if it is ever finished, through a country frost bound for seven or eight months in the year, and will connect with the western part of the Dominion a province which embraces about as forbidding a country as any on the face of the earth. British Columbia, they say, has forced on the execution of this part of the contract under which they become incorporated with the Dominion, and believe that prosperity will come to them when the line is made. This is a delusion on their part. British Columbia is a barren, cold, mountain country that is not worth keeping. It would never have been inhabited at all, unless by trappers of the Hudson's Bay Company, had the "gold fever" not taken a party of mining adventurers there, and even since that fever died down, the place has been going from bad to worse. Fifty railroads would not galvanize it into prosperity.

Nevertheless, the Canadian Government has fairly launched into this project and I have no doubt the English public will soon be asked to further it with their money. The parallel selling bonds in New York and Montreal is the new way of doing business that "Syndicates" bankers and loan contractors have adopted in order that it may seem that they have faith in the schemes of the fathers. I doubt if ten millions of dollars of ready cash could be found in all of Canada for this or any other work of utility at a pinch, but the Canadians are not such idiots as to part with one dollar of their own if they cannot borrow the money. The Canadians spend money and we provide it. That has been the arrangement hitherto, and it has worked out splendidly—for the Canadians—too well for them to try any other scheme with the English. The English, however, know they are likely to pay a single red cent of interest on the money that may be sunk in it. A friend of mine told me—and he knew what he was talking about—that he did not believe the much touted Manitoba settlement would hold out many years. The people who have gone there cannot stand the coldness of the winters. Men and cattle are frozen to death in numbers that would rather startle the intending settler if he knew; and those who survive are not killed outright, are often maimed for life by frost-bites. Its street nuisances kill people with malaria, or drive them mad with plagues of insects; and to keep themselves alive during the long winter they have to imitate the habits of the Esquimaux. Those who want to know what it is like should read the not-yet-forgotten books of Colonel Butler. His "Great Lone Land" is the land of which the Canadian Pacific Railway has "set five and twenty million acres to sell and it is through a death-dealing region of this kind that the new railway is to run.

As the bonds "secured" on this land or others guaranteed by the Dominion Government are sure to be offered in this market by the "Bankers" and others forming the company, I think a word or two on Canadian finances in general would be in season.

Canada is one of the most over-rated Colonies we have, but it is heartily "loyal" and makes the loyalty pact. Its astute inhabitants know well how to work on John Bull's susceptibility, and I have seen nothing finer in the way of advertising than poor Lord Lorne's "Tour" now in progress. He has gone to the North, but just at the right time, and the gushing accounts we are receiving from the "Specials" who are accompanying him are admirably adapted to create a belief that the true land of promise is to be found there at last. With such soil to till, and among such Queen worshippers, the distressed British farmer would be in bliss. Of course they who choose can believe all that. For my part I know of only one province in the whole Dominion—that of Ontario. "It is the only province," as a shrewd land jobber said to me once, "where you can lend money on land with no hope of ever seeing your own again." As for the country as a whole it is poor and it is crushed with debt. The Supreme Government owes about thirty-five million pounds altogether, and every province has its separate debt, as also has almost every collection of shanties calling itself a "city." The Province and the City of Quebec are both notoriously bankrupt, and the latter was obliged to go to Paris with its last loan, probably because nobody would lend it here. Last year the country had the benefit of a good crop and a good market here, so that it did a little better, but generally it has had work to make both ends meet, and often could not. Nearly every year it comes for a new loan or two, and once it is fairly committed to making this new railway I see nothing before it but bankruptcy. While the money is being spent all will go well enough, perhaps, but in the end the Dominion will have to go into liquidation. It amazes me that its stocks stand where they do as things are, but if people took the trouble to look beneath the surface, prices would be very different. One of these days when the load gets too heavy, Ontario is pretty certain to go over to the States into which it dove-tails, and where its best trade outlet is. When the day comes the "Dominion" will disappear. With the contingency ahead and with the prospect of another fifty million pounds or so to be added to the debt, can it be said that "Canadian Unguaranteed Four Per Cent" are worth their present price? This "Dominion" is, in short, a "fraud" all through and is destined to burst up like any other fraud. Then, and not I suppose, till then, the British taxpayer will ask why we guaranteed so much of this sham government debt.

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better way. And you will never suffer from excess acid when you prove out this easy remedy. Please do that—for your own sake—now. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Britain's New Flying Operating Theatre Machine Just Completed Is Equipped Up-To-Date

For use in the outpost of the British Empire, a remarkable new flying operating theatre has just been completed. In order that a patient may be lifted gently, the sides of the cabin are hinged, so that they fall completely open. There are racks for surgical appliances of all sorts, and room for two attendant nurses as well as a doctor. The fuselage is specially sprung in order that taking off and landing shall not unduly disturb the patient. An ice chest, fresh-water tanks, and a small electric stove for heating water form part of the equipment. The machine is fitted with two Napier Lion engines, giving a total of nearly 1,800 h.p., and the aerial operating room can be maintained in the air with only one engine working with very little reduction of speed. Operations would be carried out in mid-air only in the most urgent cases; but there have been instances where the lives of settlers, soldiers, and natives in remote outposts could have been saved if an immediate operation, followed by skilled nursing, could have been assured. The new aeroplane will meet this need.

AGONY OF NEURITIS

A Story Of Intense Suffering and Relief

"Do I recommend Dr. Williams' Pink Pills?" "You may believe I do," says Mr. John H. Jamieson, of Wallaceburg, Ont. "For five years I suffered day and night from neuritis. The agony was terrible. I lost control of my arm and shoulder and my hand became shriveled. Nothing helped me till I began taking Dr. Williams' Pink Pills. Even then the improvement was slow and I took ten boxes before I was on the way to recovery. After that, though, relief was rapid. My hand gradually filled out, the pain left me and I could sleep in peace. That was two years ago and I have not had a twinge of the trouble since."

Sufferers from neuritis, neuralgia or rheumatism should try the common-sense method of banishing these troubles by enriching the blood and strengthening the nerves with Dr. Williams' Pink Pills. These Pills are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Growing Industry

Demand For Bulbs Grown On Vancouver Island Exceeds Supply

"Bulb growing on Vancouver Island is still an infant industry," said Mr. T. B. Dempster, who is probably the largest grower of bulbs in British Columbia, as well as the pioneer grower of bulbs on the Island for export, having been established for twenty-one years. "The possibilities for the growth of this industry are enormous. We could do a greater volume of business than we are doing at present if we could supply the demand, and occasionally find ourselves in the position where we must buy bulbs for our own use."

Perian Balm creates and preserves lovely youthful complexion. Tones and stimulates the skin. Fragrant as a flower. Cool as morning dew. Swiftly absorbed by the tissues, making the skin wonderfully soft-textured. Unrivalled as an aid to feminine elegance. Delightful to use. Imparts additional charm to the daintiest of women. Perian Balm is the one toilet requisite for the exacting woman. Peerless as a beautifier.

Avalanche Easily Started
Even a whisper has been known to start an avalanche on the Alpine passes. One disastrous avalanche was attributed to the tinkle of the sleigh bells, and the use of bells has been prohibited on that particular mountain.

A Remedy For Earache.—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Electric Oil offers a simple remedy. Few drops upon a piece of lint or medicated cotton and placed in the ear do much in relieving pain.

Another phase of much-needed national adjustment is disclosed by the fact that there are over 26,000,000 automobiles and less than 1,000,000 hospital beds in this country.

Use Minard's for Rheumatism.

Helping the Empire

Wise "Old Country" Housewives Buy Canadian Produce

"Wise shopkeepers stock Canadian produce, good housewives buy it" is the maxim underlying the Empire Marketing Board's latest Canadian poster frame set now appearing on the Board's special frames in London and nearly five hundred cities and towns in the "Old Country."

The set consists of five posters. A Canadian apple orchard in flower and a ship for Canada under construction in a United Kingdom shipyard, are the subjects of the first and fifth. In the centre are maps of the United Kingdom and Canada drawn to scale. To right and left are smaller posters showing barrels of Canadian apples being unloaded at the docks and a customer inspecting a display of Canadian food products at a grocer's shop.

The posters point out how bigger purchases of Canadian products will result in bigger orders for Home factories. "Every time you buy Empire produce you help the Empire to buy the goods you make at home" is the message of the whole set.

Minard's for Falling Hair.

Chimney-sweeps are remarkably free from colds, observes a doctor. But they're used to the flu.

Madras, India, is to have a suburban electrified railway service.

Leaving Britain For First Time

The first steam locomotive, Stephenson's "Rocket," will be sent from London to the Chicago "Century of Progress" Exposition, Arthur Henderson, Foreign Secretary of Britain, has officially advised U.S. Ambassador Charles G. Dawes. It was understood this will be the first time the "Rocket" ever left Britain.

Insects are costly, their control is one of the greatest problems with which any country is confronted.

EVERY BIRD LOVER should have this new revised edition of "Brook's Book on Birds" to refer to on the care and feeding of cage birds. It contains 143 pages of practical advice on the treatment of bird diseases.

The regular price is 25 cents, but to readers of this paper we enclose 15 cents, addressed to the WINNIPEG NEWSPAPER UNION, McDermott Avenue, East, Winnipeg—a copy of Brook's Book on Birds will be sent along with a generous sample of Brook's Bird Seed—a correctly balanced diet prepared from the finest seeds, selected from all parts of the world; together with a real treat for your bird, a sample of Brook's Bird Treat, a fable that brightens the plumage and strengthens the song.

Every Bird Lover Should Have This Book

Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper. Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

Prairie Provinces Are Well Equipped With Facilities For Marketing Purposes

Few large surplus-producing agricultural regions are as well equipped with facilities for the distribution and marketing of agricultural products as the Prairie Provinces of Western Canada. Two transcontinental railways with thousands of miles of branch lines tap every part of the producing territory of this region. On the west these railways deliver prairie products to the ports of Vancouver and Prince Rupert. To the east the products are either carried by all rail routes to the Atlantic seaboard or St. Lawrence River ports or, as in the case of grain, delivered at the head of the Great Lakes. An additional outlet for products from this region is being provided by way of the Hudson's Bay. A railway extending northeastward from the heart of the producing territory now finds an outlet through Churchill on the Bay, where facilities are being provided for handling grain and other products by a new short route to the markets of the British Isles and Europe. Radiating from the numerous small towns and cities on these lines of railway, run many thousands of miles of good roads for the delivery of farm products from the adjoining agricultural regions.

Western Canada is a surplus-producing region. The major portion of its products is marketed elsewhere in Canada, or in the markets of the world. There are, however, satisfactory local markets in the towns and cities of the prairies for most of the perishable products produced, such as fruits and vegetables. A large quantity of poultry and dairy products is also produced for home consumption. The surplus of these products, however, finds its way to more distant markets. In the larger cities where railway terminals, facilities are provided for the handling of livestock, grain and other products.

Outstanding progress has been made by the farmers of the Canadian west in the many forms of co-operative marketing. Probably no group of farmers anywhere has advanced more in the matter of self-help in marketing. The Wheat Pool of Western Canada is the outstanding example of this development. More than fifty per cent of the grain of Western Canada is handled through this farmer-owned organization. About \$30,000,000 have been invested by producers in their own grain-handling facilities which consist of approximately fifteen hundred country elevators and a dozen or more large terminals at Great Lakes and Pacific Coast ports. Another outstanding farmer-owned grain-marketing association is the United Grain Growers operating more than five hundred country elevators and engaging in various other phases of business on behalf of producers. A large part of the livestock in Western Canada is marketed through the Provincial Livestock Pools which, together with similar organizations in the eastern provinces, form a national livestock marketing agency. Similarly in the marketing of wool, a Dominion-wide organization with a western branch office at Regina is handling in the neighbourhood of four million pounds annually, which represents more than one third of the Canadian crop. So also in the marketing of seed grain, poultry and dairy products and, in many other lines, extensive facilities have been provided by farmers themselves for the handling of their products. Many of the co-operative marketing organ-

izations have been in existence for a period of ten to twenty years and have thus proven their worth in competition with these farmer-owned and controlled organizations there is, of course, a well developed system of marketing operated by private capital.

(By Anabelle Worthington).

3282

A stunning outfit for the deb and the little sub-deb who follow closely in the styles of her debutante sister. Style No. 3282 is a rayon printed crepe that would appeal to any smart miss in its attractive vivid red tones. The shoulder and hipline bows are of plain crepe in the deepest shade of the print.

The long-waisted bodice is caught with plaits at left hip beneath the bow, which makes the right side quite deep emphasizing its diagonal line. The gathered tiers of skirt are decidedly youthful and ripple softly each time wearer moves.

This versatile model comes in sizes 12, 14, 16, 18 and 20 years.

It is dainty for afternoons in chiffon in tomato red shade, or soft falls silk crepe in Independence blue.

Navy blue wool crepe with vivid red bows of falls silk crepe is neat and girlish for classroom.

Wool challis print, feather-weight self-checked tyes, crepe de chine, crepe satin, and canton crepe appropriate.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

Beating Father Time

Two-Crop-a-Year System Speeds Up Research Work

The success which has attended the efforts of L. H. Newman, Dominion Cerealist, and his staff at the Central Experimental Farm of the Dominion Department of Agriculture in growing two crops of grain a year, one in the field and the other in the cereal greenhouse, is a fine example of putting one over on Father Time. The most important work of the Cereal Division is the development of new varieties of cereal and other plants particularly adapted to Canadian conditions and demands. In the cereal greenhouse grain harvested from field test plots in the fall is planted again within a month or so, and the work of research and development is carried forward another crop year during the one calendar year. This means in practical result that the research work which usually took from eight to ten years to carry out in connection with a specific hybrid development under the old system of field test plots can now be done in from two to five years under the new two-crop-a-year system. The development is one of major significance to Canada's future as a producer of cereal and forage crops.

Poultry Grading a Success

Record of Performance Has Resulted in Better Birds

Ten years in operation of the Canadian Record of Performance for Poultry under the supervision of the Dominion Live Stock Branch has resulted in 51,945 banded birds' having qualified for R.O.P. certificates, having laid at least 150 eggs during the record year, while an additional 17,907 hens laying 225 eggs or more each during the record year have qualified for R.O.P. Advanced certificates. Record of Performance is a poultry grading medium open to commercial and farm flocks throughout Canada through which the real production qualities of hens is determined and established in tangible form.

Menace To Farm Animals

Horsetail Weed Usually Found In Poorly Drained Fields

Horsetail, a weed familiar throughout Canada, is a menace to horses and other farm animals because of its poisonous properties. The Botanist of the Dominion Department of Agriculture, calling attention to the harmful effect of this weed on horses, cattle, sheep, and sometimes swine, points out that the presence of the weed in fields is usually an indication of the need for drainage. In cases where the weed is found steps should be taken for its complete eradication through proper drainage and adequate soil cleaning by a thorough system of crop rotation.

"Theobromine," the scientific name of cocoa, means "food of the gods."

C.N.R. WESTERN REGION OFFICIALS PROMOTED

A. C. EGAN

T. J. GRACEY

Announcement has been made of the promotion of A. C. Egan, Winnipeg, comptroller, Canadian National Railways, western region, to assistant comptroller of disbursements for the system, with headquarters at Montreal. T. J. Gracey, Winnipeg, assistant comptroller, is promoted to regional auditor. The appointments are effective, June 1.

Mr. Egan, who was born in Winnipeg, 1883, entered railway service in 1901. With the exception from 1919 to 1923, when he served the railway, in Toronto, as assistant to comptroller and general auditor, Mr. Egan had made Winnipeg his headquarters, serving in such capacities as accountant, chief travelling auditor, auditor of agencies, and regional comptroller; the latter he now relinquishes to take on more responsible duties at general headquarters in Montreal.

Mr. Gracey, who was born in Kingston, 1889, came to Winnipeg, May, 1923. He entered railway service, in 1906, at North Bay with the T. & N. O. Railway, serving that company in various positions until 1920, when he became assistant auditor of disbursements, at Toronto, for the Canadian Northern Railway. In 1923, Mr. Gracey was transferred to Winnipeg to his present position, and now becomes regional auditor.

Canadians No Longer Have Idea That East and West Are Separate Communities

Of recent years a marked change has passed over the general conception of the relationship between the Eastern and Western moieties of the Dominion. Not so long ago the accepted idea was that the clay belt of Ontario marked a gulf between that province and the prairie and Pacific provinces as deep as that which separated the thirst-parched Dives from Lazarus, safe and happy in Abraham's bosom. To the west lay the granary of Canada while eastward lay the predatory industrialized districts which regarded the granary as their own particular happy hunting ground. That idea has vanished, never to return.

This century has brought no more remarkable change than the realization that Canada is not divided up and parcelled out into any such two antagonistic and antipathetic communities. The clay belt of Ontario is now regarded as a link not a barrier. The farms of the huge region north of Lake Superior will some day merge imperceptibly into the farm lands of Manitoba, Saskatchewan and Alberta, and in the further North hinterland, right from the Maritime provinces Westward will be found the same Laurentian plateau that holds the immense mineral wealth of the Dominion. In the future, possibly earlier than expected, mining towns will spring up and with them the rapid development of the industries that are invariably and inseparably associated with urban settlement. This will arrive the Day of Canada, a day when the Dominion will step forth a complete and fully rounded out natural unity.

That may be anticipating, but mining and lumbering are not the only industries where Manitoba is beginning to trespass on what were so long regarded as preserves of Ontario and the East. And the third unexpected and hitherto unexploited field of enterprise is probably the last that would have occurred to the residents of Older Canada. Who among them would have supposed that the Manitoba industry recording the greatest gain in recent years would be one never before associated with our immediate Western neighbor. Nothing else, indeed, than fishing.

In a recent editorial the St. Catharines Standard stated that during the past few years the inland fisheries production of Manitoba had increased over one hundred per cent, and that in 1929, the market value of the 33,000,000 pounds of fish caught for commercial purposes in Lakes Winnipeg, Manitoba and Winnipegosis, and other lakes in the province, aggregated \$2,634,000. The

same article noted that a steady expansion had also taken place in the fish production of the other prairie provinces, though they did not equal the gain disclosed in the new Manitoba total.

Indications are, this article also declared, that the advance will continue in each of the three provinces for additional fishing waters are being opened each year as settlement advances and transportation facilities are extended. It seems reasonable to assume, also, that as settlement on Manitoba's Hudson Bay coast develops, sea fishing will be an increasingly important factor. Every indication of the multiplication of activities and lines of production in the west is welcomed by those in the old provinces who realize that true prosperity depends upon fast economic soundness, stability and self-reliance of each, of the various component parts of the whole country.

Working To Music

Senegal Negroes Have Novel Method Of Encouraging Aged

A common exercise among teachers who wish their pupils to "think" music is to allow them to sing part of a tune and then break off, picking up the tune at a certain point an instant later. Among the negroes of Senegal, however, this exercise has a practical use that is not at all musical. When a vessel has got on to a sandbank the way of getting it off again is by a large number of divers plunging into the water together and lifting it on their shoulders. Sometimes as many as five hundred are engaged on such a task. They swim round the vessel all singing together and at say, the eighth bar, they dive, mentally counting the melody while under the water, then at the 12th bar they all push, or lift as the case may be, and at the 16th all rise to the surface again. By this means they have no need to hear the leader counting or beating, and none of their efforts are lost by any individual being before or after the others. To do this, however, they must have a strong sense of time and tune.

Choice Of Two Methods

Molasses Can Be Given To Hens In Water Or Food

There are two methods of giving molasses to chickens. You can mix it at the rate of a pint of molasses to four quarts of water and give them this water to drink in usual quantities. Be sure to give a fresh supply daily after cleaning drinking vessels carefully, as molasses will ferment if left in vessels for a few days, especially in warm rooms or temperatures. If preferred, you can use this molasses water for mixing your wet mash and they will get it in feed.

Commercial Orchards In B.C.

In British Columbia commercial fruit-growing is of comparatively recent origin; but the development of commercial orcharding has been very rapid, especially during the last ten years. The first apple trees were planted about 1850, but not until after the completion of the Canadian Pacific Railway in 1886 were there many trees planted for commercial purposes.

Black, brown and cinnamon bears all belong to the same species.

Natural deposits of sand and gravel occur in all the provinces of Canada.

"Did you go elephant hunting in Africa?"
"Not much. It is so uncomfortable as the bag is full so quickly."—Musketeer, Vienna.

WRIGLEY'S

WRIGLEY'S is good company on any trip.

It's delicious flavor adds zest and enjoyment. The sugar supplies pep and energy when the day seems long.

In short it's good and good for you.

WORLD HAPPENINGS BRIEFLY TOLD

The Prince of Wales soon will qualify for his air pilot's license. He handled the controls during the 200-mile air trips he took in west England without, however, making the landings.

Frankfurter Zeitung says that Germany has paid into the Bank of International Settlements a deposit of 100,000,000 marks, which she is obliged to do under the terms of the Hague agreement.

For the first time in history Scotland Yard has enrolled eight women detectives. Known as the "mystery eight," the women were chosen for their looks, education and knowledge of police work.

Any Johnson, attractive British girl flyer, who became a national heroine on the recent completion of her flight to Australia, was awarded the honor of Commander of the British Empire in the King's birthday honors list.

Miller's Worm Powders are complete in themselves. They do not only drive worms from the system, but repair the damage that worms cause and so invigorate the constitution that it speedily recovers from the orders of the digestion that are the result of the work of these parasitic intruders. They do their work thoroughly and strength and soundness follow their use.

Surgery In Motion Pictures

Motion pictures are being introduced into the University of Berlin, Germany, to teach surgery. During an operation in the clinic a camera focussed on the operating table makes a film record of every step in the surgeon's work. Later the film is shown in the classroom and the operation explained.

No Rest With Asthma. Asthma usually attacks at night, the one time when rest is needed most. Hence the loss of strength, the nervous debility, the loss of flesh and other evils which must be expected unless relief is secured. Fortunately relief is possible. Dr. J. D. Kellogg's Asthma Remedy has proved its merits through years of service. A trial will surely convince you.

Senator's Portrait Unveiled

Surrounded by members of the Senate, who united in paying tribute to a former speaker and colleague, Hon. N. A. Belcourt unveiled the portrait of Hon. Hewitt Bostock, whose 35 years of parliamentary life in Canada came to a close during the Easter recess. The portrait, executed by Ernest Fosberry, hangs on the wall of the Senate lobby in a spot chosen by Mr. Bostock a few weeks before his death.

Steam at high pressure has been successfully used to combat fires in oil wells.

Ensures Quality and Length

Canadian Inspectors Keep Careful Check On Binder Twine

One of the perennial difficulties of the grain grower at harvest time comes from binder twine. The seed branch of the Dominion Department of Agriculture, through its inspectors, keeps a careful check not only on the quality of binder twine made in Canadian factories and also brought in from other countries, but they also take particular care to ensure that the full length of the twine is in the ball. Under the inspection and Sales Act every ball of binder twine sold in Canada must bear a label showing the name of the maker and the number of feet per pound in the ball of twine. The usual lengths are 500, 550, 600 and 650 feet per pound, the two longer lengths being the more popular in Canada. Systematic inspection shows that infractions of the regulations are infrequent, and also ensures that quality in the product which gives confidence to the farmer using it.

Winnipeg Newspaper Union

(By Anabelle Worthington).

2948

A sports weight linen in lovely soft brown with maine. Join adopts bolero treatment that is decidedly one-sided, with each end joined to underarm seams and tied in bow. The skirt away so prettily cut circular and joined to diagonal yoke top. Shirting at left front shoulder provides decorative note and fulness. Long sleeves have perforations to be made short, if desired.

Style No. 2948 makes an excellent school frock for the girl who knows smart clothes. It is very inexpensive too. In the 8-year size, 2½ yards of 40-inch material is sufficient to copy it exactly. It is designed in sizes 6, 8, 10, 12 and 14 years. Brown and white checked gingham with the one-sided bolero which is merely an over blouse caught in at shoulder and armhole made of plain brown pique is strikingly chic and serviceable.

Advice For Livestock Producers

Should Exercise Caution With Respect To Movement To Slaughter

The Dominion Live Stock Branch continues its advice to the producer to exercise the greatest caution with respect to the movement of livestock to slaughter. The reasons for this are: Consumer purchasing power shows a decline, the export market is comparatively narrow, demand for beef is now on a hand-to-mouth basis, and cold storage supplies are particularly heavy. At the present time 12 per cent. more beef is in cold storage than for the same time last year, the stock of fresh frozen beef is about 26 per cent. heavier, veal is 76 per cent. heavier, and lamb and mutton in cold storage shows an increase of 84 per cent. over the corresponding period last year.

A True Philanthropist

Spends Money On Summer Camp For Working Women

People who have more money than they can use, or more than is good for their heirs, could do no better, says a writer, than adopt the idea of Mr. August Hecksher, New York philanthropist, who is entertaining 50 women, 45 years old and over, at his summer camp near Peekskill. His guests are recruited from that grim grey army that scrubs floors and cleans offices while those more fortunate in the metropolis play and sleep. If the reader can think of any guests who might be more grateful for hospitality than these scrubwomen, whose wages hover around \$10 a week, the writer wants to hear of them.

FAINT, DIZZY SPELLS

Had To Sleep

Propped Up In Bed

Mrs. Norman Bishop, Salisbury, N.B., writes:—"I was troubled with faint and dizzy spells and when I would lie down I would suffer terribly with smothering spells. I got so bad I had to sleep propped up in bed. "My doctor said it was my heart and nerves, and that I needed a good heart tonic. "I was advised to take

and I had not taken one box when I could lie down and sleep like a child." Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SUNDAY SCHOOL LESSON

JUNE 15

JESUS ON THE CROSS

Golden Text: "Looking unto Jesus the author and perfecter of our faith, who for the joy that was set before Him, endured the cross, despising shame, and has sat down at the right hand of the throne of God."—Hebrews 12:2.

Lesson: Matthew 27:1-66.

Devotional Reading: Psalm 22:1-5, 14-19, 27, 31.

Explanations and Comments

The Crucifixion, verses 32-38.—They led Jesus away to be crucified, going outside the city limits, as was the custom (Acts 7:58). The knoll to which He was taken away was called "Golgotha," a word meaning "the place of the skull." We call it "Calvary," from the Latin word "Calvaria," a skull. There they offered Him wine mingled with gall, for which He was taken away was called "Calvary," from the Latin word "Calvaria," a skull. There they offered Him wine mingled with gall, for which He was taken away was called "Calvary," from the Latin word "Calvaria," a skull.

"O Man of Sorrows, with the wound on his forehead; For thorn, a pagan cross, Bound with the woe and agony of time. Yet loved by children and the feasting guests— I bring my suffering, joyful heart to thee."

Frederick Lawrence Knowles.

Over His head was placed this accusation against Him, written in Hebrew, Latin and Greek (John 19:20): "This is Jesus, the King of the Jews." On either side of Jesus a thief was crucified. Crucifixion was terrible and disgraceful in itself, but if Jesus had hung there with nothing near to disturb the impression of His vain serenity and innocence, Phillips Brooks suggests, it might well have happened that the people who stood and watched would have felt the majesty of the sacrifice. "Already, that place of suffering might have seemed as glorious as it has seemed to the world since. But as it was, they went to prison and dragged out two wretched culprits who were waiting for their doom. That there might be no doubt about the disgracefulness of the Saviour's sufferings, they hung Him between the thieves.

"In the cross of Christ I glory, Tow'ring o'er the wrecks of time; All the light of sacred story Gathers round its head sublime."

The Taunts Of the Spectators, verses 39-44.—The cross was near the public road leading to Jerusalem, and passers-by mocked Him, shaking their head in the direction of the cross, as if to say, none one suggests, "That is what it has come to!"

"Thou that destroyed the temple and buidest it in three days, save Thyself," they jeered. "If Thou are the Son of God," as Jesus had acknowledged at the trial, Matthew 26:64, "come down from the cross, others cried. And the chief priests

and scribes and elders did not seem to join the rabble in their mockery: "He saved others; Himself He cannot save," they cried.

Producing Better Bacon

Live Hog Grading Policy Has Had Excellent Results

Canada's Live Hog Grading Policy, supervised by the Meat Inspection Service of the Dominion Live Stock Branch, has resulted in the production of increasing quantities of select bacon hogs. Fed on dairy by-products and finished on the small hard grains which make for firm high-quality product, these hogs prepared for market by government inspected packing plants under ideal conditions give the product a mild cure and deliver it to the retailer in the form for which the housewife shows a growing appreciation—better bacon.

Douglas' Egyptian Liniment is especially recommended for spider, or infection of cow's test. Invaluable also in cases of spasms, curbs and sprains.

When this country was first discovered it was a howling wilderness, and since then it has progressed to be a howling civilization.

Minard's for Insect Bites.

Plant life cannot exist more than 600 feet below the level of the sea, but animal life has been found at a depth of four miles.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

FOREST FIRES DESTROY SCORES OF FARM HOUSES

Fort Arthur, Ont.—Fourteen-year-old boys, grim-faced, weary from loss of sleep, fought like men and did men's work in Sioux Lookout's valiant defence against forest fire invasion. V. R. "Bill" Hicks, Ontario air force pilot who arrived here, told forestry officials and newspapermen who met him in Sioux Lookout is out of danger now, Hicks said, and the few fires that remain in that district are under control.

More than twenty-five families, approximately 75 persons in all, were temporarily homeless, driven from their homesteads by the relentless onrush of devastating forest fires of timber land in north-western Ontario for the past six weeks.

While a large force of forest rangers and volunteers were heroically battling against the numerous blazes, word was received of the first fire fatality.

The body of Paul Gartin, former German war ace, who had been employed as pilot by the Western Canada Airways, was recovered from the waters of Lake Seesaganag, near Allan-water, Ont. It is believed that Gartin's machine, enveloped by dense smoke clouds crashed into the lake, June 2. On that day, the airman was on a cruise over the flame-ridden country, scouring for possible refugees and checking on the path of the fire. Gartin distinguished himself as a flyer with the famous Rich-terfen Circus on the Western front during the war.

Larson is a blackened ruin. The little railway hamlet about two miles west of the lakehead on the Canadian National Railway fell prey to flames, and its few residents fled to neighboring towns.

Frame houses at isolated points in the Larson region were destroyed, bringing the total loss in personal property close to \$100,000.

When Albert E. Swain's milk farm was totally demolished and the animals lost, damage was estimated at \$50,000.

Strike Natural Gas Well

In Search For Water Near Hudson Bay Junction

Hudson Bay Junction, Sask.—There was a big rush here for natural gas, when prospectors and citizens left for the scene of a blazing well, 20 miles south of Hudson Bay Junction.

While a C.N.R. well digging outfit sought water at a depth of 300 feet they noticed a gas escaping and set a match to it. It ignited at once and is still burning with a flame about ten feet high. There are indications of oil at some points in this district and claims have been staked over the last few years but this is the first inclination towards a natural gas well. It is reported that if the well were deepened a great supply of gas would be released.

Prince Substitutes For King London, England.—The Prince of Wales substituted for King George in the trooping of the colors during the Horse Guards' parade on the monarch's birthday. He wore the uniform of a colonel of the Welsh Guards. King George, who was 65 years old, watched from a balcony of the admiralty building. He seemed fit despite the rheumatic attack which prevented his participation.

A Six-Horse Town Churchill, Man.—Population of Churchill, on Hudson Bay, has been tripled, speaking in equine terms. Two teams of horses were brought to the port from The Pas, to join the lone duo of horses taken to Churchill last season by the Department of Railways and Canals. So Manitoba's most ambitious settlement is now a six-horse town.

President Wants Action Washington, D.C.—President Hoover of the United States says he wants action on the London naval treaty and has informed Senate leaders that he will call a special session of the Senate to discuss the treaty.

W. N. U. 4541

Needs Canada's Co-Operation

Without Her Help Britain Cannot Develop Atlantic Airways

London, England.—The air lines of the British Empire are expanding rapidly and rank second only, in mileage, to those of the United States, declared the Rt. Hon. Lord Thomson, secretary of state for air, in the House of Lords, during a broad and inspiring review of the Empire's accomplishments in the world of flying. Lord Thomson predicted an era of great aerial expansion within the Empire in the next year or so. He stated there were now about 22,350 miles of regular air routes. He hoped the end of 1931 would see an extension of the Indian route towards Australia, but the date for the completion of this plan, he said, rested largely with the government of Australia.

The Cape to Cairo route should be completed as far as the great lakes of Central Africa by the end of this year and be in full operation by the spring of 1931.

Lord Thomson praised the opening up of what was called the Atlantic airways in the western Atlantic. Such a development, although started, could only be carried through with the co-operation of the Canadian government and the most sympathetic response was coming from Canada. A great deal of work had been done by the committee of experts established last July, said the secretary of state for air. They had reported favorably on the Atlantic airways scheme and he was fairly confident now that "we should be able to do something along this line."

Question Can Wait Action

No Hurry On Fixing Bay Route Insurance Rates On Shipping

Ottawa, Ont.—Question of insurance rates on shipping by the Hudson Bay route is relatively unimportant at the present time, stated Hon. T. A. Crerar, Minister of Railways and Canals. His statement referred to the report of the imperial shipping committee to the Canadian government, saying that it will be impossible to fix rates until navigation is under way and the effect of ice-breakers and direction finding wireless equipment is established.

Mr. Crerar mentioned that it will be 14 to 15 months before European traffic uses the bay route to any extent.

When asked if the government would take over the insurance of shipping until the new rates are struck, Mr. Crerar said no consideration had been given to that phase of the question.

Grain Broker Sentenced

Winnipeg Man Is Given Two Years In Penitentiary

Winnipeg, Man.—F. H. Bole, prominent Winnipeg grain man, was sentenced to two years in penitentiary on charges of obtaining money from the Bank of Montreal by false statements. Mr. Bole, who was head of the Electric Elevator Company, Limited, recently suspended from trading on the Winnipeg exchange, pleaded guilty in provincial police court.

Three charges were laid against the grain official, covering amounts totalling \$85,000 alleged to have been obtained from the bank. After entry of a plea of guilty to all three charges, Mr. Bole was sentenced to one year on one charge, and two years on each of the other two charges. All sentences, the court ruled are to run concurrently.

Icelanders Leave For Celebration

Going Home For Big Anniversary Of First Parliament

Winnipeg, Man.—Prominent members of western Canadian Icelandic communities numbering 150, left here June 3, bound for the millennial celebration of the Althing, to be held in Reykjavik, Iceland, this month.

At the station, hundreds of friends and representatives of local organizations gathered to farewell the party, which includes Prof. R. Beck, head of the department of Scandinavian languages, University of North Dakota, and H. Westergaard, Norwegian vice-consul at Rostevan, Sask.

NEW U. S. MINISTER

Lieut.-Col. Hanford MacNider, who has been chosen by President Hoover as United States Minister to Canada.

Canada Will Be Represented

Delegates Have Sailed For World Power Conference At Berlin

Ottawa.—Canada will be well represented at the second world power conference to be held in Berlin, Germany, June 16-25, it was announced by Dr. Charles Campbell, Deputy Minister of Mines and Chairman of the National Committee. Not only have many Canadian delegates sailed, but several papers will be delivered on the water power resources of this country.

Among the Canadian delegation will be Dr. Cassin, John Murphy, electrical engineer, Department of Railways and Canals; Hon. F. P. Burden, Minister of Lands, British Columbia; Dr. T. H. Hogg, chief hydraulic engineer, Hydro-Electric Power Commission of Ontario; G. A. Gaherty, president, Calgary Power Company; J. C. Glasco, general manager, Winnipeg Hydro-Electric System.

A feature of the conference will be a telephone radio hookup on the occasion of the official banquet on June 18, at 3 p.m. E.S.T. Berlin, London, England, San Francisco, Cal. and Toronto Edison laboratory will be included in the hookup.

Mr. Edison will speak from his laboratory in New Jersey.

Blue Print Makes Air Trip

Carried By Wind From Melita, Manitoba To Saskatchewan Town

Brandon.—Carried more than 175 miles through the air by the high winds, a blue print travelled from Melita, Man., to Assiniboia, Sask., where it was picked out of the air by a resident of the latter town. The A. R. McDiarmid, Ltd., received the blue-print back in their office with the notation on it from Assiniboia, "picked this out of the air during big blow. Some record."

The print had been sent to Melita in a bid for some work and was known to have been in the possession of the Melita people, and no other copy was in existence.

WHERE R-100 WILL "LAND"

Health Insurance System Advocated

Would Curtail Immense Loss Caused By Sickness Is Belief

Toronto, Ont.—A state health insurance system as a means of curtailing a large percentage of the \$300,000,000 loss of productive capacity in Canada annually from preventable illness was strongly recommended for support by the Canadian Manufacturers' Association in the report of the industrial relations committee here at the 99th annual meeting of the association.

The report cited findings of a special commission appointed by the British Columbia Government in support of the recommendation and stated experience in England, Germany and the United States shows that sickness causes more lost time than any other causes put together.

The industrial relations committee expressed a willingness to co-operate with the government in the movement for a thirteen month calendar.

Distributing Samples Of Champion Wheat

Toronto Visitors Will Be Reminded Of Alberta's Victory

Toronto, Ont.—Five thousand samples of the consignment of Alberta wheat which won the world's championship at the Chicago Grain Exposition last fall will be distributed among visitors at the Shrine convention here.

Arrangements for the novel method of attracting attention to Alberta's and Canada's achievements in the world of agriculture were concluded by Hon. George Hoadley, Alberta's Minister of Agriculture. As the result of his negotiations, 5,000 phials containing the wheat samples are ready for distribution to interested Shriners or their families.

The champion wheat was grown on the farm of Joseph H. B. Smith, at Wolf Creek, Alta.

Message From King George

Repplies To Congratulations On Birthday From People Of Canada

Ottawa, Ont.—Replying to a message of congratulation sent on behalf of the government and the people of Canada, His Majesty King George, cabled Premier King as follows: "I sincerely thank you, the government and people of Canada for your greetings and good wishes on this anniversary of my birthday. I much appreciate the loyal sentiments to which your message gives expression."

Mission Hospital Burned

Port Simpson, N.W.T.—Inflicting loss over \$50,000, flames of unknown origin swept through the Roman Catholic Mission Hospital here on June 4. Heroic work on the part of the sisters in charge of the institution was responsible for the saving of all patients and considerable of the valuable hospital equipment. The old building was erected about 20 years ago.

THOMAS GIVEN NEW POSITION IN BRITISH CABINET

London, England.—Prime Minister Ramsay MacDonald, in the House of Commons, made the first announcement regarding his expected plans for changes in the Labor Cabinet when he stated that J. H. Thomas, Lord Privy Seal, at present in charge of the government's programme for relief of unemployment, is to be made Secretary of State for the Dominions — a newly created cabinet post.

Until a few years ago dominion affairs came under the British colonial office. Then, in deference to the increased independent status of the Dominions, the title of that department was changed to the Dominion and Colonial Office, though the administration of it remained in the hands of one minister.

MacDonald informed the house that the approach of the imperial conference, which will be held in September, and the nature of its business necessitated complete separation of the Dominion and Colonial offices and the placing of a separate minister over each. He then said that Thomas will accept the new post of Secretary of State for the Dominions. It is not entirely new to Thomas, however, as in MacDonald's first government, in 1924, he was colonial secretary and became extremely popular with the dominion governments and their representatives in London.

New Senators Appointed

Five Vacancies In Province Of Quebec Are Filled

Ottawa.—Appointment of five new senators from the province of Quebec was announced following a lengthy meeting of cabinet.

Those appointed to the senate are: Hon. Rodolphe Lemieux, who was speaker of the House of Commons; E. W. Tobin, late Federal member for Richmond-Woodville; J. Prevost, late member for Terrebonne; George Parent, late member for Quebec West; and L. A. Wilson, former member for Caudeville-Soulanges.

In making the announcement, Prime Minister Mackenzie King explained that the fifth Quebec vacancy in the senate arose through the resignation of Senator Louis Lavergne, of Kennebec. It is understood that ill-health was the cause of the resignation of Senator Lavergne.

Mr. King also stated that it had been the rule in the past not to appoint members of parliament to the senate. There had been some exceptions, but the general rule had been followed for some time. This explained why all those appointed at the present time were former members of parliament who had held seats up to the date of dissolution.

Mr. King also stated that it had been the rule in the past not to appoint members of parliament to the senate. There had been some exceptions, but the general rule had been followed for some time. This explained why all those appointed at the present time were former members of parliament who had held seats up to the date of dissolution.

This explained why all those appointed at the present time were former members of parliament who had held seats up to the date of dissolution.

Grain Elevator Burned

Cause Of Fire Believed To Be Spontaneous Combustion

Silton, Sask.—The Pool elevator, built in 1912 and containing 11,000 bushels of grain, was a smouldering heap, on Wednesday morning, June 4, as the result of a fire that broke out the night before. The loss is estimated at about \$35,000. The fire is believed to have been caused by spontaneous combustion. Seven empty C.P.R. box cars standing on the loading tracks when the fire commenced, were pushed to safety by manhandling them further away.

New Radio Receiver

Atlantic City, N.J.—A radio receiver capable of adjustment to compensate for local deafness of the individual listener has been demonstrated to radio engineers assembled here. Julius G. Aceves, consulting engineer of the New York inventor of the device, explained its function and performance before a meeting of the Radio Club of America.

Depends On France

Rome.—Italy is willing to suspend her 1930 naval building programme pending the outcome of the proposed Franco-Italian conversations on naval limitations. If France agrees to the same, Dino Grandi, the foreign minister, announces.

George J. Bryan, B.A., LL.B.

The Sun learns that George J. Bryan, the Liberal Candidate, is a native born Edmon- tonian. He received his edu- cation in Calgary and Edmon- ton, graduating in 1925 from the University of Alberta with the degrees of B.A. and LL.B. During his University days Mr Bryan was head of the Students Court, leader of the University debating team against the Uni- versity of Oxford, and winner of the Chief Justice' gold medal in law. Since graduating Mr Bryan prac- ticed law in Edmonton and Stony Plain, and for two years was Pres- ident of the Young Liberal Asso- ciation.

Edmonton Beach.

Mr Barrie has secured the contract for hauling the mail from Stony three times weekly.

Mrs Rita Kew of Edmonton bought a lot last week; as also has Mr G M Brown of the Edmonton Journal. Mr Brown has commenced to build.

A very exciting ball game held the attention of the crowd Sunday after- noon, when the newly organised Beach team beat Comet 9-6.

The basketball teams played a snappy good game in the late after- noon. Everyone is anxious to know who will be the lucky winners for the cups Stony Plain and Mr Barrie donated. The cups are now on display at the Beach.

It was surprising to see so many at the lake Sunday, after the rain storm Saturday evening.

A very delightful luncheon was served at the Plaza Tea Room, in honor of Miss J Kinsman, New York, who was the guest of Mr and Mrs Walker of Winterburn.

Free. Poplar Poles, for hauling them away or piling them on the breaking. E C McLaughlin, phone 972-5123. 13

For Sale. 3 flat bottom rowboats with oars and oarlocks, \$8 each. J. A. Barrie. 15np

DONALD MACLEOD
The Farmer Candidate

Stony Plain and District

Postmaster Miller and Sam Zucht are at present on a motor trip to Jasper.

Mr O Opperthausen, Roch- fort, was visiting friends here for a few days.

Mr Bert Becker, Scotford, was a week end visitor in Stony.

Miss Bertha Comisarow of Winnipeg and Miss Sylvia Winnicott of Vancouver were visitors at the Comisarow home over the week-end.

Mr Ph Unterschuetz re- turned this week from St. Louis, where he has been studying at Concordia Seminary. A call has been extended to him from a pastorate at Rochester, on the Athabasca railway.

See Meeklenburg, the well- known Edmonton Optician, at the Royal Hotel, Stony Plain, Wed., June 18. The very best and latest styles and at moderate cost. Ed- monton office, Suite Six, 10170 101st St.

The West Edmonton Federal Convention.

Those in close touch with Hon. Chas. Stewart say that a Liberal convention in West Edmonton Riding is hardly likely to be held until after the election June 19th. The Minister himself is not ex- pected to come west until around June 25, and then he will remain in the district un- til after the election.

There are a number of de- tails that have to be settled in connection with turning over to the province the natu- ral resources that will keep the minister of the interior in Ottawa for at least one more week.

Bright Bank Briefs

What with the coming election and baseball, the weather is almost suffocating in this district.

After the election and the recovery of Big Jim, we will be looking forward to the time of the big Scotch gather- ing at Hansen's.

By quick thinking and acting, one of our prominent farmers escaped what might have proved a serious accident while driving his car at a sharp turn in the road south of Luck- now school on Sunday last.

Rosenthal ball players motored out here on Monday and engaged the local team. After some good play the score was about even.

Spruce Grove News

A meeting of local Conser- vatives will be held at the home of Mr Robert Beurlen, next Tues. Evg. June 17, to discuss matters in connection with the forthcoming Federal election.

The Grove's players who went down on Sunday to help Winterburn beat Callahoo, had hard luck, being beaten by a good score.

Pupils at the local school who read the posters indicat- ing their school would be used as a polling place on June 19, are wondering where they'll be writing their Departmental exams., which occur on that day.

The bench warmers who decorate the front of business places any sunny afternoon are formulating a law govern- ing the parking of motor cars.

From some cause at present not exactly made clear, but probably owing to an article on the subject in a leading weekly, the Horseshoe game has taken quite a spurt, and the gentle tinkle of shoes hit- ting the iron stake is now heard almost every evening.

Departmental exams, for local pupils take place next week. Bryant Piercey will write his at Stony school, and Carl Loeblich will go to an Edmonston school for his.

Signs on the east end ele- vator have been re painted to read "Searle Grain Company" Mr Forbes is manager.

The Winterburn Grove ball game postponed Saturday on account of the rain storm, will be played at the Grove St. next June 14.

The Grove and district will be well represented at the big Conservative meeting to be held in Stony Plain tonight. Addresses will be given by Col. Jamieson and Mr Mil- ner, K.C.

The Grove's leading poli- tician is still in semi retire- ment.

The tennis club was opened with great eclat on Monday night, a number of sets being played; lunch being served at the close of the play.

CHAPTER XV.—Continued.

"Oh, no, she doesn't!" contradicted Grandma, "not if she finds the right man, anyway. School teaching's all very well for a while; but I guess the girls are just the same inside as they were in my day, except maybe they're more sensible. A girl wants her own man and her own home and her own babies, whether she wears her skirts to her knees or trailing in the dust as they did when I was your age. I saw a letter in the Boston paper protesting about this leg show, as the woman called it. I made me sort of mad. I guess she was over seventy, or else terribly behind the times. I'm too old to make changes myself; but it would be a dull world if nobody made 'em; and for my part I can't see what's wrong with a pair of legs. Even Mrs. Merry's had her best dress shortened, though being the minister's wife I expect some folks'll criticize her. If you're not too tired, childy, I think you'd better make something good for supper. The doctor's been scurrying 'round all day, and is liable to have an appetite. Here he comes now!"

CHAPTER XVI.

On a bright afternoon in late October, Charman, who had stayed after school to correct some papers, was just starting on her homeward walk when a familiar car approached and drew up beside her.

Before Her Baby Came

"I have used several bottles of Lydia E. Pinkham's Vegetable Compound and find it helps me wonderfully, especially before childbirth. I have five lovely children. After my last baby came I had a miserable pain in my right side so I bought another bottle of the Compound and feel fine now. I work outside during the fruit season in addition to my housework."—Mrs. Charles Slingerland, R.R. #4, St. Catharines, Ontario.

Lydia E. Pinkham's Vegetable Compound

Small text: Lydia E. Pinkham, Med. Co., 255 State St., R. 2, Lowell, Mass., U.S.A.

W. N. U. 1841

"Ride?" questioned Jim shortly. "You don't seem to be going my way," she answered.

"What if it? I'll have you back in time to get your supper, and a breath of air will do you good. Hop in."

Charman obeyed.

Hopie Grandma, won't think I'm lost or kidnapped," she said uneasily; but in a moment Jim saw that she had relaxed, and guessed that his timely invitation was a relief.

"Tired?" he asked, as they moved away from the old brick schoolhouse and headed toward Eastboro.

"A little," the girl admitted. "It's been a trying day. I suppose such days come to all schoolma'ams, and I'm no exception."

"What was your special brand of trouble this time?"

Charman looked up with a quick smile.

"Deacon Purdie."

"That old mud turtle! What business did he have with you?"

"Have you forgotten that he is now the doting father of six?"

smiled Charman. "To make a long story short, Jim, Luelia's oldest, who's a smart Aleck if there ever was one, was too impatient yesterday to be endured. I sent him home with a note saying he could not return without apologizing; and his loving stepfather took it to heart."

"What'd he say?"

Jim was running slowly in order to watch Charman as she talked. She met his eyes with a wistful smile.

"Oh, let's forget it! He's—"

"You'll forget it quicker if you get it off your chest," advised Jim wisely. "Go on."

"He said that his son (note the 'son,' Jimmy!), was not going to apologize to 'no Davis.' He implied that he held the school board in the hollow of his hand, and would make things hot for me unless I let the boy come back without saying he was sorry. And I can't, Jim—I wouldn't have a shred of discipline left if I allowed it. All the children heard my ultimatum, and—Oh, I believe, honestly, that the deacon is just trying to get even about those dreadful boys! Don't tell Grandma, Jimmy."

"Would-worry her to death; but if I lose the school,..."

Her voice trembled, and because Jim wanted more than he'd ever wanted anything, to tell her that the school might "go to the devil" if only she'd see a certain subject the way he did, he opened the throttle and said nothing at all until he had himself in hand. He didn't speak until they reached a bit of woodland where he stopped the car.

"Look here, Charman." His voice was the least bit husky, and his arms were folded across his chest in an effort to keep from temptation.

"Don't let that worry you a minute. The deacon on the school board, of course (more shame to Wickford), but he's only one. Do you imagine that his word would weigh in the balance against yours with the other members, George K. and Doctor Howe? Don't let him scare you. Just stick to your guns and everything will be all right. Gosh! I wish you'd order me to break his ugly nose!"

Charman laughed. Already her troubles seemed miraculously lighter.

"You think I'm right then?" she questioned humbly.

"Of course, you are! Cheer up, now, and relax. Shut your eyes, if you want to, and I won't bother you with talking. You need a rest."

The car moved forward, but though the girl closed her eyes obediently for a few moments, they wouldn't stay closed.

"There's no use my missing this lovely foliage," she explained. "It seems even more gorgeous than usual to me; and Grandma's sure Mrs. Luelia's out-of-leaf maple was never quite so gay."

"I think it's only that every year the coloring surprises us a little," replied Jim thoughtfully. "We're used to seeing it all green. Then comes a frosty night and—pronto change! We wake up and the scene's different, the way they do it in a theatre."

"I believe you're getting poetic in your old age!" laughed Charman light-heartedly.

"I must have caught it from you, then," he responded.

She answered, a bit reproachfully: "If you did, the infection can't be very recent. You're a good deal of a stranger these days, Jim Bennett."

He threw her a quick glance.

"I understood that your evenings were engaged."

DO YOU SUFFER WITH HEADACHE?

So easy to get quick relief and prevent an attack in the future. Avoid bromides and dope. They relieve quickly but affect the heart and are very dangerous. They are depressing and only give temporary relief, the cause of the headache still remains within. The safe and harmless way. First correct the cause, sweeten the sour and acid stomach, relieve the irritations of the decayed and poisonous food matter, gently stimulate the liver, start the bile flowing and the bowels pass off the waste matter which causes your headache. Try Carter's Little Liver Pills. Druggists 25c red pkg.

"How?"

"Entertaining your gentleman boarder," he answered hastily, and was furious to feel the cold creep into his face.

"What would you have me do—look him in the wood shed or his office?" she retorted. "After all, Jim, a boarder is supposed to have the privilege of the family sitting room; and Grandma likes to talk with him."

"A fine chance she has when you and he are watching the moon rise from Wade's Hill," Jim countered with good-natured sarcasm.

"Whoever on this earth told you I climbed Wade's Hill with him?"

Charman was so astonished that Jim smiled as he replied: "It may have been the whip-poor-will that was singing its head off somewhere in the vicinity that evening; and then again, it may have been Luelia Baker. There's precious little you do, my friend, that Luelia doesn't broadcast to—well, my mother, for instance. She hasn't forgiven me, I understand, for taking a detour from the straight and narrow path that leads to your front door; and in consequence..."

As he hesitated, Charman gave way to a peal of laughter in which he joined.

"I wonder why it is that our elders take our slights so much more deeply to heart than we do ourselves," said the girl at last. "Miss Lizzie thinks she owns a piece of me, you know. In her opinion every man in Wickfield should be in love with me."

"She's not far off there," responded Jim gallantly. "But as for slights—why, I—I never..."

He was suddenly inarticulate, and Charman stretched out an impulsive hand, laying it on one of those that gripped the steering wheel; which unexpected contact caused the car to swerve.

"You don't owe me any explanations, Jimmy."

"I think I do," he answered as she removed her hand, "but not on the subject of Clara Darling."

"About what, then?" asked Charman in surprise.

They had reached Eastboro, and Jim answered, as he slowed up before the bank: "I'll tell you some day," but before she could ask more he had vanished within a side door that gave access to the building after banking hours.

On the way home, however, he skillfully managed to keep the conversation away from his own problems, and hers. He told of happenings at the bank that made her laugh—he asked questions about trivial nothings that kept her mind from her encounter with Deacon Purdie; and when he dropped her before the old Davis house at half-past five, Charman met a different girl the discouraged teacher he had picked up an hour or so before.

"You're a good doctor, Jim," she said gratefully as she left him.

"Seems as if you'd been gone a week," commented Grandma, to whom Jim waved as he rode away. "Not but what it's been sort of an exciting day, though. A man came through on his way to the White Mountains riding one of those infernal machines—a motorcycle, I mean."

On Your Holidays

Feel safer with a bottle of Minard's in your grip. It will come in handy on numerous occasions.

MINARD'S
"KING OF PAIN"
LINIMENT

I heard him coming from clear down the street so I was watching and saw everything plain as day. It's a wonder he hadn't killed a dozen children, going such a rate; and just as he got here Luelia Baker's cat ran across the road chasing the Garfield's Plymouth Rock rooster that had got loose somehow. It was a bad combination, I'll admit that. You know how hens behave when they cross a street, and I can't see that roosters act much different if they do belong to the male sex. Anyhow, that man on the motorcycle turned out so as not to hit the cat, and—well, I suppose he must have hit something for he went head over heels and that contraption he was riding lying a-top of him with the engine running."

"Was he killed?" gasped Charman.

(To Be Continued.)

IS BABY TEETHING?

Teething time is a time of worry to most mothers. The baby is nervous, fretful; feverish. His little gums are swollen and sore; diarrhoea, constipation, colic and sometimes convulsions set in. Neither baby nor mother can sleep.

These troubles can be quickly banished, however, through the use of Baby's Own Tablets concerning which Mrs. Louis Grubb, Teeswater, Ont., says:—"I have used the Tablets for all my babies while teething and have found them splendid medicine."

Baby's Own Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Bananas Grown in England

An exhibit which attracted considerable comment at the Royal Horticultural Society's Fruit Show, in London, England, was a bunch of bananas weighing nearly half a cwt., which had been grown in England. This is the first time for 26 years that bananas grown in this country have been exhibited at one of the society's shows.

Minard's Drives Away the Headache.

Nasty Nuisances

A Massachusetts court has ruled that airplanes flying less than 100 feet from the ground commit a trespass on private air right. But what we are more interested in discovering is how far our horizontal air rights extend, as against the neighborhood radio?

Gyproc Gives PERMANENT PROTECTION

MADE from Gypsum rock, Gyproc Wallboard does not burn. And this year it has a new smooth Ivory finish that needs no decoration (when panelled) although you can tint, paper or plaster it as you wish.

Structurally strong, inexpensive, easily and quickly put up, Gyproc Wallboard gives permanent fire protection to the walls, ceilings and partitions of your home.

Your dealer's name is listed below. Ask him for complete details of this pioneer Canadian fire-safe Gypsum board or write for free interesting book, "Building and Remodelling with Gyproc."

All business places in Stony Plain close at One O'clock on Wednesday in June, July and August.

The Gardens Competition.

The regular monthly meeting of Stony's Women's Institute takes place today June 12th. Among the other business which comes before the members will be that of the Gardens competition, which is under their auspices.

The Mayor and Councillors have proclaimed Wednesday Aug. 5th a Civic holiday, on which day the judging of the gardens will take place. A committee from the Institute will be appointed to arrange a program of events for that day, which will be on a large scale.

The competition will not only include the garden plots, but also that of potted house hold plants, of the latter class of which there is expected to be a very large number of entries.

Constituency Ass'n Meets.

A meeting was held in Stony Plain last week of the officers of the U. F. A. Constituency Ass'n, with Mr Broadstock in the chair. In the absence of Secretary Best, Mr C Pitzler was appointed to take the minutes. The meeting went into committee of the whole on ways and means.

The first matter attended to was setting a charge on each member, to meet the expenses of the present campaign. To expedite matters, the secretary was instructed to send a notice of this to all officials of the association.

Arrangements for carrying the campaign into each of the polling sub divisions was planned, and members were appointed to see the plan was carried out. Meetings will be held in the various schools and halls right up to the 18th.

The candidate, Donald Macleod enlightened those present on several matters under discussion.

Wainberg--Comisarow

In Edmonton, on Sunday, June 8, 1930, by the Rev A Penski, Miss Lillian Marie Comisarow, (daughter of Mr and Mrs M Comisarow, Stony Plain) was united in marriage to Mr Samuel Morris Wainberg, son of Mr and Mrs P Wainberg, Edmonton.

Mr Wm Wainberg, brother to the groom, attended the groom. The bridesmaids were Miss Sara Wainberg and Miss Annie Wainberg, sisters of the groom; Miss Bella Newhouse, Miss Bertha Capisarrow of Winnipeg, Miss Sylvia Winnicuff, Vancouver. About 125 guests were present.

On the return of the happy couple from Banff and Lake Louise, where they will spend their honeymoon, they will take up their residence at Bashaw, Alberta, where Mr Wainberg is engaged in business.

Notes of the Elections

Mr C Pitzler, the well-known campaigner, has been appointed election agent for the U.F.A. candidate.

On Tuesday next, June 17, between 10 a.m. and 4 p.m. appeals to add or strike off names on the voters list may be made to the revising officers.

The Conservatives have a meeting for tonight in town hall, in the interests of their candidate—Col F C Jamieson, who is running in West Edmonton Federal Riding. The Colonel and Joe Adair will be among those to give addresses.

June is the delightful month, says an exchange, when the amateur gardener learns whether the radishes he planted were rhubarb or nasturtiums; and on the 19th the candidate will learn whether the good words he implanted have turned into votes for him.

Chris Hein, a former resident of this district, is the Independent candidate in the new Clover Bar Constituency.

Those voters who say they'd not vote for So-and-So; that they would rather vote for the Devil, are reminded of the Old Country politician who was told this by a voter. "Quite so," replied the politician, "but in case your friend declines to run, may I not then count on your support."

An Iowa man has perfected a new kind of wheat that looks like barley and tastes like oats. Our Minister of Agriculture, when he completes his lecture tour, should look into this.

TENDERS FOR RENOVATING SCHOOLHOUSE.

SEALED TENDERS will be received by the Board of Trustees of Smithfield School District No. 1307 at the office of the Secretary Treasurer up to 25th June, 1930, for the following contracts—

- 1st. Placing concrete foundation under School House.
- 2nd. Re siding, altering position of windows, and building addition to porch.
- 3rd. Painting inside and outside of School.

All work to be completed by 25th August, 1930. Further information can be obtained from the Secretary Treasurer. The lowest or any tender not necessarily accepted.

Here and There

(533)

"I think that the increase in unemployment has stopped in the United States and that by the time the Fall comes around, things will be much better," declared Professor Leo Wolman, of Boston, interviewed aboard S.S. Empress of Australia, on his way to the International Wage Conference at Geneva. "The worst has passed," he added, "and things are looking brighter again."

Canada's new championship golf course, the Royal York of Toronto, was opened officially May 19, in the presence of a distinguished gathering of golfers and Canadian Pacific and civic officials. George S. Lyon, Grand Old Man of Canadian golf, drove the first ball, and later in the day, the clubhouse was honored by the inspection visit of Their Excellencies, Lord and Lady Willingdon. The course is in connection with the Royal York Hotel and will be at the disposal of guests.

W. R. MacInnes, vice-president in charge of traffic, Canadian Pacific Railway, since 1918, and after 45 years' service with the company, retires May 31 at his own request, and will be succeeded by George Stephen, at present freight traffic manager. In announcing the change, E. W. Beatty, chairman and president of the railway, said: "Mr. MacInnes has been in the company's service for forty-five years and has discharged his exacting duties as freight traffic manager and as vice-president in charge of traffic with conspicuous ability and loyalty to the company's interests. By his retirement the company loses one of its ablest and most respected officers."

More than four hundred varieties of apples have been originated at the Canadian Government Central Experimental Farm at Ottawa within the last 35 years. As thousands of seedlings have fruited, the apples have been tested and the best of them named and perpetuated for future production.

Five years ago the total output of petroleum in Alberta was 168,643 barrels; last year it rose to 999,152 barrels, of which 981,221 barrels came from the Turner Valley, the comparatively new field about 35 miles south-west of Calgary.

Contracts for 65 miles of extensions to the Northern Alberta Railways which run north of Edmonton through the Peace River district, have been let. These extensions are to cost \$2,350,000.

Canada exports more manufactured goods per head of the population than any other country in the world. The figures are:—Canada, \$64.80; Great Britain, \$55.80; Germany, \$32.63; France, \$30.68; and the United States, \$25.13. It takes the exports of one American plus one German plus \$6.39 to equal the exports of one Canadian.

The demand for quarter sections each of 160 acres, of free homestead lands in Western Canada, given by the Canadian Government to settlers, continues to increase. In the first three months of this year there were 254 entries registered representing 40,240 acres, as compared with 2,405 entries representing 354,800 acres in the corresponding months of last year.
